

Author Talk

“ *Uniquely Normal* will provide readers with lots of practical ways to work with the full spectrum of individuals with autism.” -Dr. Temple Grandin, author, *Unwritten Rules of Social Relationships*

In 2017 Best Books Award Winner *Uniquely Normal: Tapping The Reservoir of Normalcy To Treat Autism*, author Robert J. Bernstein has found a different approach based on cognition thinking in helping people of all ages with ASD. Author's goal is for people with ASD to be able to live in the world and connect with the people in it as themselves, to express their unique humanity and engage more fully in the human interactions that give life meaning and make it worth the effort of getting out of bed every day.

Join us for an author talk and book signing on the following date and time:
