

## We're Migrating to a New Catalog!

Westchester libraries will be moving to a new catalog system, *Evergreen*. For you, this means an improved interface with better and easier search capabilities, greater control over your notifications, and better access to what's available through the library.

The online catalog will be offline **March 11 to March 13** and many services, such as databases, will be unavailable. You also won't be able to log into your library account during this period of time. Due dates of checkouts will be extended through this time as a courtesy. However, the *Overdrive eBook* collection will remain available; make sure you are registered for Overdrive before March 11. WiFi connection in the library will not be interrupted.

Check [www.westchesterlibraries.org](http://www.westchesterlibraries.org), or contact your local library, for more information and updates.
